JERUSALEM, THE HOLY CITY, AT LAST TAKEN BY BRITISH FORCES GREAT STORM OF CIVIL WAR BREAKS IN EUROPEAN RUSSIA

Centuries Long Dream of the Christians at Last Realized.

After 1200 Years' Struggle the City Around Which the Christian Religion Centers, Passes from Mohammedans.

Grip of the Infidels at Last Broken.

(By Associated Press Cable)

London, December 10.—Andrew Bonar Law, Chancellor of the Exchequer, announced in the House of Commons today that Jerusalem after being surrounded on all sides had surrendered to the British.

The capture of Jerusalem by the British forces marks the end with two brief interludes, of more than 1200 years possession of the great seat of Christian religion by the Mohammedans.

For 673 years the Holy City has been in the undisputed ownership of the Turks, the last Christian ruler of Jerusalem being the German Emperor Frederick the Second, whose short-lived domination lasted from 1229 to 1244.

Apart from its connection with the campaign being waged against Turkey by the British the fall indicates the definite collapse of the long protracted effort of the Turks to capture the Suez canal and invade Egypt.

There had been no hint from either official or unofficial sources as to the British intention to undertake a definite invasion of the Holy Land and it was with intense surprise that the world learned on March 7th, last, that the British had captured El Khullil, 15 miles south of Jerusalem.

El Khullil is the modern name of ancient Hebron.

In sentiment only and romantic aspect the capture of Jerusalem far exceeds the fall of Fable-crowned Bagdad.

The modern city of Jerusalem contains about 60,000 inhabitants and is the home of pestilence, filth and fever, but in historic interest it naturally surpasses to the Christian world all other places in the world. Since the days when Joshua wrested it from the hands of Jebusites to make it the capital of the Jewish race Jerusalem has been the prize and prey of half the races of the world. It has passed successively into the hands of the Assyrians, Babylonians, Greeks, Romans, Persians, Arabs, Turks and the motley crowd of the crusaders, finally to fall before the defendants of Richard the Lion Heart who drove in vain for its possession more than 700 years ago.

GRAND ENTRY

The Chancellor said that British and Mohammedan representatives were on the way to Jerusalem to safeguard the Holy places.

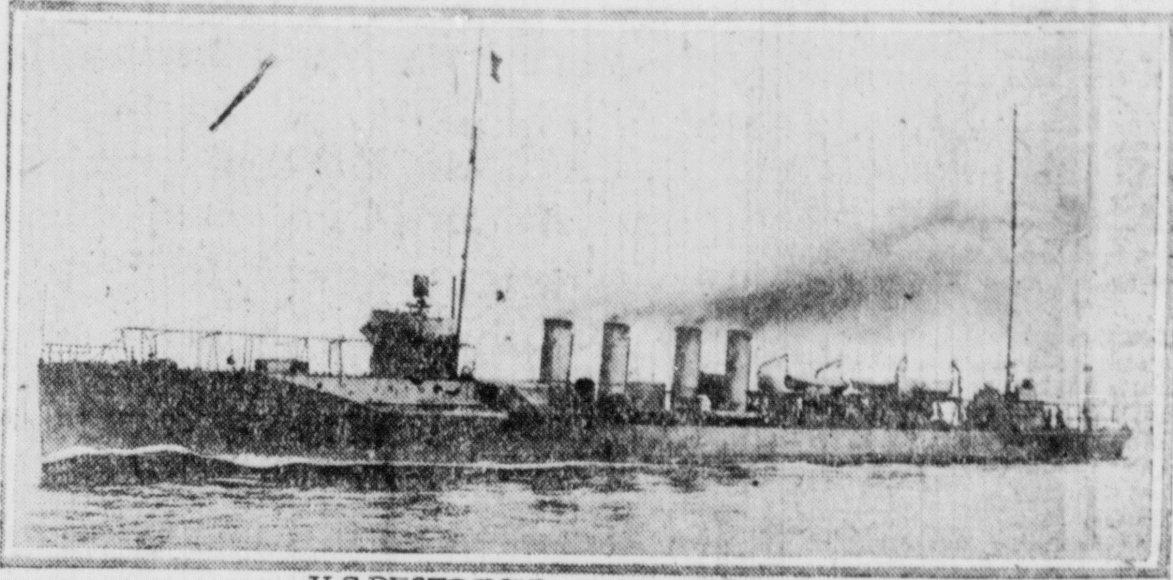

The Chancellor said that General Allenby expected to enter Jerusalem tomorrow, accompanied by the commanders of the French and Italian contingents.

ARREST OF GERMANS IN HALIFAX

Military Authorities Cause Many Subjects of Kaiser to be Jailed.

Reason Not Yet Announced to the Public.

(By Associated Press Dispatch)

Halifax, December 10.—Wholesale arrests of German residents of Halifax were begun today by the police. This action was taken under instructions from the military authorities.

Sixteen Germans were taken into custody within a short time. Military officials, after examination, released a few of them. The others are in the county jail.

The authorities refused to disclose whether they had obtained evidence associating the Germans with the explosion of last Thursday.

A number of citizens of German birth heretofore have been allowed full liberty, with the requirement of reporting once a month.

Revised figures issued today follow: Dead unidentified, 1200; unaccounted for, 2000; dead identified, 900; wounded, 8000; homeless, 25,000.

Today found Halifax rapidly emerging from the chaos into which the city was plunged by the explosion last Thursday. Incessant snow and rain which followed the disaster greatly hampered efforts to alleviate the sufferings of the thousands of homeless people but the return of fair weather today made possible rapid headway.

All relief agencies have been coordinated. Enough doctors and nurses have reached the city to take care of the hospital duties. A considerable quantity of supplies already has arrived and more are on the way, so that danger of famine has been averted, and there is ample clothing for all. The supplies must be carefully conserved however and the authorities today were doing their best to enforce the request recently published that non-residents now here should

HUNDREDS KILLED WHEN U. S. SHIP BLOWS UP AT HALIFAX

leave and others should not come here for the present.

The work of repairing the innumerable damaged buildings was well under way.

Burial of the victims of the explosion and fire was begun today.

"Men wanted immediately at Fairview cemetery." This advertisement in the morning paper called attention to still another problem—finding men to dig graves for the hundreds of dead.

The health authorities working in co-operation with the general relief committee made it plain that burial must not be delayed.

Laborers were assigned to the cemetery and men who never handled shovels are aiding in the work of grave digging.

Little groups of sorrowful people went silently to the cemetery adjacent to the Richmond district, utterly wiped out by the flames, and laid away their dead, without friends in attendance and with the commitment rites omitted.

There were not enough ministers to officiate for all. There were not enough pallbearers or hearers. The dead were laid away with none there but the folks from homes now a mass of ruins.

STEAMER IN FLAMES

(By Associated Press Dispatch)

Halifax, N. S., December 10.—The deck of the British steamship Picton laden with munitions, caught fire last night and only the quick work of a Halifax rifleman company prevented another big explosion. The men boarded the ship, threw the burning car overboard and checked the flames before they reached the hold.

The vessel was then taken to sea and sunk today.

BLAME MONT BLANC

Bolsheviki Will be Put to the Supreme Test to Maintain its Hold on Petrograd. Generals Kaladines, Korniloff and Dutiff Unite in Gigantic Struggle. Constitution Democrats Are Assisting Hetsman of the Don Cossacks to Cut off Supplies.

CIVIL WAR HAS BROKEN OUT IN RUSSIA AND THE BOLSHEVIKI REGIME WILL BE BROUGHT TO THE TEST. THE PETROGRAD GOVERNMENT HAS ISSUED A DECLARATION ANNOUNCING GENERALS KALADINES AND KORNILOFF AND DUTIFF HAVE BEGUN A REVOLT IN SOUTHEASTERN EUROPEAN RUSSIA.

The Bolsheviki government declares the constitutional democrats are assisting the Hetsman of the Don Cossacks, and his fellow military leaders who are said to aid at cutting off food supplies from the Black Sea to the Ural mountains as well as in the Caucasus.

Bolsheviki troops have been ordered to take the field against the counter revolutionists.

TO OBTAIN THE NEEDED COAL

(By Associated Press Dispatch)

Cleveland, O., December 10.—What is by far the most drastic fuel relief measure yet approved by the Federal and Ohio Fuel Administration has been outlined by State Fuel Administrator Johnson, in what is technically termed "a pooling arrangement," which practically entails a complete union of all coal shippers in Ohio, Pennsylvania, West Virginia, Kentucky, and Michigan, with a radical disregard of all ironclad rules which heretofore have governed the shipping of coal by railroads. The plan has the approval of Fuel Administrator Garfield.

The measure, it is believed, will bring to an end the coal crisis in Cleveland and other cities in Ohio.

A pitiable case has come to light in the Jeffersonville neighborhood, where a family residing near the town was caught by the zero weather without a supply of fuel, and during the cold hours of Sunday, with no fire in the house, some of the children suffered severely frosted feet from which it will probably require weeks to fully recover.

When the condition of the family was learned, coal was provided without delay, and their sufferings relieved.

HE BOUGHT A BUGGY

One of the local merchants showed a farmer a buggy, priced at \$90 and the farmer kicked, because twenty years ago his father bought one just like it for \$60.

Then the merchant looked up the sale and found that the father had turned in 300 bushels of corn for that buggy, and he told the farmer's son to deliver him 300 bushels of corn and he would give him:

- One \$90 buggy
- One \$75 wagon
- One \$20 suit of clothes
- One \$20 dress
- One \$5 baby dress
- One \$5 crib
- One \$3 box of cigars
- \$10 worth of sugar
- \$10 worth of tea
- \$100 worth of gasoline
- \$15 worth of lubricating oil.

The total figures, \$333 as the value of 300 bushels of corn, and it is needless to say that the high cost of living disappeared from the farmer's mind and he bought the buggy.

Some such reckoning as this might be a good thing for those people who never stop to consider the other fellow's troubles.—Ex.

EVELYN NESBIT AND HER SON RUSSELL IN "REDEMPTION"

Evelyn Nesbit and her son Russell Thaw, in Julius Steger's production of "Redemption," will be seen at the Palace Theater next Thursday and Friday, matinee and evening each day.

This attraction, which because of its novelty and sensation has attracted country-wide attention, will prove the surprise of the year. For weeks The Cohan Theater in New York was packed to overflowing; hundreds were turned away daily and the vast audiences were moved to tears as the story was unfolded, reel by reel.

Evelyn Nesbit is known the world over, and she has proved herself not only an exceptional screen subject, but an emotional actress of really great ability. There are heart throbs that bring tears to the eyes.

There is truth in the story to amply justify the theme, and above all it makes one feel deeply mother love. Here and there are touches of comedy to relieve the tense dramatic situations, the result being an almost perfect photodrama.

Julius Steger and Joseph A. Golden directed the production and they have given it every advantage in the way of a competent cast. Adv.

Our First Naval Loss

The American people on Friday, were given news of the first reverse—the first tragedy of great consequence of the war as affecting the American forces.

In the dead hours of the night of Thursday, December 6th one of those slinking jackals of the ocean, came to the surface of the storm tossed water, in the north Atlantic and fired a torpedo on a "chance shot" at the American destroyer Jacob Jones.

The one chance in a thousand was a winner for the pirate and the sturdy craft, on patrol duty guarding life and property against disaster, was struck in a vital spot and sank beneath the icy waters.

We must accept these tragedies as a part of this brutal war the Huns are waging. We have reached the time now when we may expect American names on the casualty lists and American ships and American forces attacked.

The crew of the destroyer never had a chance—there was no battle. It was assassination. Old glory didn't go down to defeat in a square fight.

But that's this awful war. We may expect these cowardly blows from the hand of an unscrupulous foe.

The nation mourns the loss of the members of that gallant crew and the sturdy fighting craft of our navy, but the Huns will be made to pay in the end.

The tragedy of Thursday night must spur us on to redoubled efforts to exact reparation and to hasten the end of such warfare.

Some Real Winter

Real winter weather descended upon us from out the great northwest, way up in the mythical somewhere about Medicine Hat or Moose Jaw or perhaps beyond where they manufacture these blizzards. Nobody seems to know just exactly where these cold waves develop any way or, if they do know, they have never given us definite information.

The first thing we know is that a tremendous cold wave or a moderately cold wave is on the way or that it has arrived. Most of them, according to reports, begin out in that great northwest country.

Sometimes we wonder what it is like on the other side of that Medicine Hat place we hear so much about.

But any way real winter arrived with a rush, Friday night and Saturday.

Folks went to bed on Friday night feeling that we were having just a taste of winter and they wakened up Saturday morning to find the earth covered with a thick blanket of snow.

Coming in advance of the icy hurricane that blew in out of the northwest, Saturday afternoon and evening, the snow covered up the roots of the young and tender wheat, all the while enriching the soil.

We must not forget now, any of us, when the cold blasts make us narrow the circle about the fire that nature has kept winter weather back-beyond his scheduled time of arrival and we can expect to have some pretty rough spells from now on.

Real winter is all right. It causes inconvenience and some suffering, but it does a "heap" of good too.

"Stick to Your Knittin'."

This is the time to observe literally that old bit of homely advice "stick to your knittin'." There never was a time in the history of the world when there was more call for knitted articles of wearing apparel. The mothers and daughters of the land should occupy every spare minute plying the long needles, making useful articles to protect the boys of America, the boys of France, the boys of England and the boys from every continent and island of the earth now braving the wet and cold of France, fighting liberty's battles against the Huns.

Hundreds of thousands have sent back word testifying their appreciation of the warm knitted apparel sent them—telling how much superior it is, in wearing qualities, and how much more comfort they get out of the home made articles than they do from the hurriedly made by machinery articles sent them by the war departments.

Tons and tons of sweaters, scarfs, wristlets, socks, helmets and other articles have gone across the sea and still the call comes for more and more. Friends and loved ones at home are urged to hurry.

The good women of America have been doing a tremendous amount of work with the needles and the yarn. They have produced great results but still there is call for greater effort.

For some unaccountable reason there is a feeling among a few people that there is no pressing need for knitted articles. That's a mistake. With added thousands of our boys going abroad, with active campaigning coming on the need is greater than ever.

Factories can't keep up with the demand and to the Priscilla in every home the boys at the front are calling for aid.

Priscilla must "stick to her knittin'" if she is not going to fail the boys who make home in America possible.

RED CROSS SEALS.

There was a man in our town town
 And he was wondrous wise,
 He bought his Red Cross Christmas
 Seals
 In very large supplies.

And when he sent his present out—
 As many as could be—
 Each gift was pasted roundabout
 With Seals to fight T. B.

Ride a cock horse to Banbury Cross,
 To see a fine lady help the Red Cross.
 Seals on her letters, Seals on her gifts,
 She helps heal the needy whose burdens she lifts.

There was an old woman who lived
 In a shoe;
 She had so many children she didn't
 know what to do.
 Some she knew had T. B., and of some
 there was doubt;
 If you buy Christmas Seals you'll help
 them all out.

Sing a song of sixpence
 A pocket full of cash,
 Four and twenty presents?
 Careful—don't be rash!
 Before your pocket's empty
 The thing for you to do
 Is buy your Red Cross Christmas
 Seals—
 They'll heal the needy, too.

FAMOUS ONE-EYED MEN

The men in the above picture probably saw more with ONE eye than most people ever saw with TWO. And they REMEMBERED what they saw. Dr. Johnson was one of the keenest writers and wits of his time. Lord Nelson was one of the greatest British Admirals yet he didn't quit because one peeper was put out in action. Colonel Roosevelt can see a mollycoddle just as far with his one eye as he could with both. It doesn't matter whether you have one eye or two. IF you use the brain that is back of the eye and REMEMBER and STUDY what you see.

PLENTY OF PEACE RUMORS ARE AFLOAT IN SWITZERLAND

(Associated Press Correspondence)
 Berne, November 25.—About the only thing that Switzerland has too much of is peace rumors. Travelers who come from Germany, France, Austria and Italy say those countries, too, are full of the talk about conferences that are supposed to be going on constantly here between "personalities" from the Entente and the Central Powers. An American who because of his prominence in local affairs must be nameless sums up the actual situation, as the correspondent has found it also, when he points out the presence of notables from belligerent countries must not be regarded as significant because while they may come

here to "feel out" the sentiment of the other side, they are not often genuine peace envoys.

Any proposition which any country is willing to advance, or to accept, can be stated by any agent whose presence here is not even noted and who is without authority to do more than deliver or listen to a proposal. No one has been compromised, particularly no one has exhibited "signs of weakness" by advancing "terms."

That such tentative "feelers" have been put out repeatedly seems beyond doubt, but it is not these that have caused the ever-recurring peace rumors to circulate, but rather the presence from time to time of national characters from either side. The facts seem to indicate that, if peace negotiations actually are going on, they are privately conducted, for their respective governments, by unpretentious and more or less unofficial persons.

Mrs. Walter Ellis gave a beautiful birthday party Saturday afternoon for her eight year old daughter, Elizabeth.

Thirty children flocked around the young hostess, a pretty picture in her white frock, wide pink sash and big pink hair bows, and the rooms rang with merry glee as they contested happily in a variety of games. Virginia Wilkin won the prize in a bean hunt.

A Japanese decorative scheme was fantastically carried out and Japanese lanterns were effectively hung through the rooms.

The children's joy culminated when the delicacies they best liked were served in a dainty lunch. There was a big birthday cake, with eight brightly burning candles. The young guests went wild over the favors, "Japanese Surprise Nuts," entirely new and novel, and sent from Alameda, Cal., for the occasion by the little hostess' aunt, Mrs. Louis Weinmann (nee Arvilla Rowe Baxter).

Mrs. Ellis was assisted during the afternoon by her mother, Mrs. Joseph Myers, Miss Mathilda Myers, of Columbus, Mrs. Orme Brown and Christine Meiers.

The guests were Ramona Short, Maxine Clark, Dorothy Donohoe, Georgia Prue Chapman, Mary Ellen Grove, Virginia Wilkin, Dorothy Sparks, Wainita Gerstner, Louise Fenner, Ruth Sheppard, Alice Brownell, Dorothy Stolzenburg, Jean Michael, Enid McClure, Janet Whelpley, Alice Hixon, Helen Rodecker, Mary McLean Kathleen Penn, Mary Katharine Snider, Mary Alice Davis, Lillian Teeters, Dorothy Lansinger, Helen Chandler, Frances Griffith, Richard Stein, Herman Sheppard, Louis Stolzenburg, Daniel Wilkin, Paul Masters, Tom Ducey, Tom Gardner Murray, Robert Hartman, William Ireland, Robert Lansinger, Paul Phillips, William Brown Forest Ellis.

Much local interest is attached to the announcement of the approaching marriage of Miss Hazel Fultz, daughter of Mr. and Mrs. E. J. Fultz, of Derby, to Mr. Oliver Bibler, formerly of Columbus, who now holds a Government position in Washington, D. C.

The bride has often been the guest of her aunt, Mrs. O. H. Robbins and other relatives in this city and is a bright, attractive girl, who counts her friends by the score. She resigned an excellent office position in Columbus last week.

The wedding will take place during the holidays.

Officers were elected: President, Mary Forman; Vice-President, Dorothy Briggs; Secretary, Norma Dodd; Treasurer, Laura Brownell; Librarian, Margaret Harper.

ROAD IS TIED UP BY MAMMOTH DRIFTS

Because of the mammoth drifts on the D. T. & I. Railroad it was impossible to run trains over the road on Sunday, and it was not until Monday morning that the first freight was able to plough its way through the line in this county, opening the way for passenger trains to follow.

The road was the worst affected because of the fact that it runs north and south, giving the snow an opportunity to pile into every cut through an embankment.

The Saturday night south bound train did not reach this city until Sunday morning, and the path of the train was quickly covered up by the blowing snow.

HARTMAN THEATER

Monday, Tuesday and Wednesday, December 10, 11, and 12—Matinee Wednesday—Otis Skinner in "Mister Antonio."

Conspicuous among the best theatrical offerings of this season is Otis Skinner in the American comedy "Mister Antonio" by Booth Tarkington. Mr. Skinner will return to the Hartman Theater, Columbus, in this beautiful play Monday, Tuesday and Wednesday nights and Wednesday matinee, December 10, 11, and 12. There is no star more deserving of the high regard of the public than Mr. Skinner, for his appeal has been always dignified and his performances highly artistic.

Mr. Tarkington in "Mister Antonio" has written Mr. Skinner a cheerful comedy, that fits the great player like the proverbial glove. Tony Camaradonio is an Italian organ grinder, a poet by nature, an optimist by disposition, and a lover of mankind by choice. In telling the story Mr. Skinner is enabled to figure in his brilliant, emphatic way as the champion of the oppressed, and the chivalrous righter of wrongs.

Mr. Skinner's admirable art illuminates every character he presents, and his Tony Camaradonio is a lovable jovial, happy-go-lucky vagabond, who wins every heart. The play opens on the east side of New York, and the subsequent action takes place in a small town in Pennsylvania.

Mr. Skinner is under the management of Charles Frohman. His supporting company is the original one, and includes Eleanor Woodruff, Joseph Brennan, Robert Harrison, Frances Landy, Agnes Marc, Walter F. Scott, John McCabe, Ernest Elton and others. Mail orders for seats are being received now, and will be filled promptly and returned in order of their receipt when accompanied by a stamped, self-addressed envelope and remittance. The regular seat sale opened, Thursday, December 6th.

SEVERE COLD ESTABLISHES A NEW RECORD

Ten to Sixteen Degrees Below Zero Follows Severe Blizzard of Saturday.

Traffic Demoralized by Huge Drifts Over Highways and Railroads.

Gas Pressure Low and Demand for Coal Grows as Icy Grasp of Winter Tightens.

Record breaking cold weather for the month of December has held the country in its icy grasp since Saturday night, and the blizzard that raged almost all day Saturday and again on Sunday was equal to any in recent years.

In this city both Sunday and Monday mornings at seven o'clock the government thermometer registered 10 degrees below zero, and at some points in the county the mercury crawled to 16 below zero, or at a low point rarely reached in this latitude. Not only has the low temperature caused a great deal of suffering to both man and beast, but the snow, piled high in the country roads and over the railroads has caused a virtual suspension of traffic on the former and shot to pieces the schedules on the latter.

Virtually all trains have been late since Saturday morning, and in some instances the lateness reached as high as ten hours as the trains endeavored to force their way through the huge drifts piled over the tracks until in some instances the drifts were almost over the engines.

All day Saturday the blizzard raged with ever increasing coldness that reached the zero point by midnight and far below by early Sunday morning.

Very few persons came into the city Saturday, and on Saturday night, Sunday and Sunday night there was very little traffic on the main country roads and none on the other roads.

The north and south highways, in countless places, were drifted so badly that all traffic was suspended until the roads could be cleared.

DOCTORS CANNOT TRAVEL.
In many instances in which physicians were called and could not reach their patients on account of the impassable condition of the roads, have come to light. Other instances of doctors becoming snow bound on the highways and being unable to extricate their machines until they summoned aid from nearby farm houses, are numerous.

TOO MUCH FOR AUTOS.
The deep snow was too much for automobiles, and some of the main highways have had the least traffic during the past two days of any time since their construction.

Automobiles by the score stuck fast and in some cases it was necessary to leave the machines standing by the roadside.

Several autos containing soldiers on their way home for over Sunday, were left in this and adjoining towns, and the men continued their trip by train.

Scores of automobiles were damaged Saturday and Saturday night by the water freezing solid in the radiators, causing numerous breaks in the pipes and virtually ruining the radiators. The cold came so suddenly and was so much worse than anticipated that few anti-freeze solutions stood the test unless the mixture was exceedingly rich.

GAS PRESSURE LOW.
The gas pressure in this city has been very low during much of the present cold snap, and the result has been that cooking has been done under a serious handicap, while those depending on the gas for warmth were forced to resort to other methods or leaving or suffer from the cold.

There is only one reason for the shortage, and that was due to every one making as free use of the gas as possible, and the drain proved too great. It is urged that all persons who can do so, husband the supply of gas as much as possible. Central heat has not been able to maintain proper warmth in many instances.

DEMAND FOR COAL.
The demand for coal has been greatly increased by the intense cold, and the dealers are expecting a larger supply than usual, providing, of course that no further serious delay in transportation is caused by the cold and snow. In Jeffersonville, Sunday, hauling was quite in order, and many persons were supplied with fuel and suffering ached.

SCHOOLS CLOSE.
Numerous schools were closed, Monday, on account of fuel shortage and

the fact that the pupils could not reach the school houses. Jeffersonville schools were not opened.

nobleman, would you hesitate? If you were an unprotected girl and heard that your home had been wrecked in a sudden war, would you dare to hurry back to the heart of danger? If you found your mother and sister slain and your brother blinded in a hopeless battle, would you have the womanhood to bear up under it? If the debonair foreign nobleman came along and still showed he loved you, would you forgive him for being an invader? If you had a chance to serve your country by pretending to be a traitor, would you consider it?

If your true American lover's sister was ruthlessly executed before your eyes, would you ruin your country's plans by betraying your sympathies? If you were finally discovered and could purchase safety and a life of ease by wedding a barbarous foe, would you prefer to choose a miserable death? Mary Ward has to decide all these and other momentous questions in J. Stuart Blackton's soul-stirring spectacle, "Womanhood, The Glory of a Nation," starring Alice Joyce in the role of Mary Ward and Harry T. Morey which is at the Colonial Theater on Thursday and Friday. Advt.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

AMONG WOMEN WAR WORKERS

Donate Your Sewing Machines For War Relief Work.

If the women of Washington realized how greatly more sewing machines are needed at the War Relief headquarters in Memorial Hall, there would certainly be prompt response and many additional machines loaned for the work.

With women rising to the call for workers as they have not done before there is greatly increased capacity for work and it is a serious handicap when there are not enough machines to handle the work cut out. At the present time there are only eight machines at the work shop.

Any woman who will donate the use of her machine for even a short time will be doing her real "bit."

Red Cross Salaries.

In accordance with its policy of keeping people of the country thoroughly informed on all of its activities the war council of the American Red Cross has made public a summary of salaries paid at national headquarters as of November 1.

On that date there were 423 paid employees, a reduction of 63 in the month of October. There are now 88 volunteers at national headquarters who devote their entire time to Red Cross work without remuneration.

The salaries paid were classified as follows: Under \$600, 85; \$600 but less than \$1000, 182; \$1000 but less than \$1500, 86; \$1500 but less than \$2000, 33; \$2000 but less than \$2500, 10; \$2500 but less than \$3000, 6; \$3000 but less than \$5000, 18; over \$5000, 3.

Four months ago there were 70 paid officers and employees at national headquarters. Since that date the membership of the American Red Cross has been tripled and the number of chapters doubled. In spite of this enormous growth the number of paid employees has been decreased by 27.

This reduction is due in part to the decentralization of administration, which has transferred much routine work from national headquarters to the 13 divisional offices, whose payrolls are not included in the above statement, and in part to the readjustments at national headquarters.—Washington (D. C.) Post.

Christmas Membership Drive.

Unfettered enthusiasm is marking the preparations for the great Christmas Red Cross membership drive in the Lake Division. Response has passed far beyond the expectations of Division Manager Garfield and Campaign Director Rose.

Intense but friendly rivalry has sprung up in Ohio, Indiana and Kentucky to see which can out do the other in enrolling the greatest percentage of their respective populations. A number of Chapters, which already have 21 per cent or more of the population, have pledged themselves to have 50 per cent on their rosters by Christmas Eve.

Donations Pay for Electric Cutter.

The new electric cutter is delighting the women of the Red Cross workshop and greatly expediting the work.

The cutter was purchased by special gifts from patriotic people, so that nothing was taken from the Red Cross treasury.

M. S. DAUGHERTY IS COUNTY CHAIRMAN FOR SALE OF STAMPS

By Associated Press Dispatch.

Columbus, O., December, 10—Announcement has been made by H. P. Wolfe, director of the Ohio War Savings Committee, of chairman for the county committees in this state. To each of these chairmen has been forwarded complete details for handling the sale of Thrift Stamps and War Savings Stamps in this community. The work of the county organizations will be that generally of creating a demand for the stamps and at the same time providing "over the country" facilities for their sale. The distributors are the postoffices, banks and other authorized agencies.

In Fayette county Mr. M. S. Daugherty is chairman of the organization to be perfected.

The county chairmen are advised that they may surround themselves with such advisors and obtain such assistance in the form of an executive committee as they may deem necessary. The work of promoting the sale of the War Savings Stamps is placed on the same basis as that of the Liberty Loan bond campaigns. The amount appropriated by Congress for expenses in distribution of the stamps is so small that it little more than provides the Treasury Department with sufficient funds to prepare the literature and get the campaign under way.

In his letter of instructions to the county chairmen, Director Wolfe says: "In the selection of your committee, politics should be avoided by all means. The very biggest men in the community should be available for this patriotic work, which is, perhaps, the most important from a social point of view that the United States has ever undertaken."

Ohio's quota of the \$2,000,000,000 issue of War Savings Stamps is \$106,000. This amount must be "saved" before next December.

CONSERVE WATER PRESSURE IS LOW

During the intense cold of the past two days the water pressure has been comparatively low because of the general practice of opening faucets to prevent water pipes freezing.

This practice has reached such a degree that all day Sunday the pumping station could make little headway against the constant drain.

All citizens are requested to permit as little wastage of water as possible, in order that the pressure will be adequate in case of a serious fire.
